

Thermojetics® High-Protein, Low-Carb Shake Mix

Carbohydrates are healthy, filling, satisfying and taste good, but they can also add weight.

In recent years, there has been an emphasis on restricting fat in our diets, yet obesity has increased to epidemic proportions. So what's wrong with this picture?

The problem is that most of the "low-fat" processed foods contain simple sugars—i.e., products made from white flour such as bread, cereal and pasta, along with naturally occurring complex carbohydrates such as rice, potato and corn. All of these foods stimulate the production of insulin, which encourages fat storage. When you take in an excess amount of carbohydrates, especially the refined forms prevalent in many "low-fat" products, what isn't used for fuel is stored as fat.

Herbalife's Weight-Management Shake Mix, which is part of the Thermojetics® High-Protein, Low-Carb Program, can turn up the fat-burning flames on your metabolism and help you lose weight fast. At the same time, it is formulated to leave you feeling satisfied and energized because it is super-charged with essential vitamins, minerals, nutrients and herbs to help you safely reach your weight-loss goal.

Whether you're choosing a frothy vanilla or chocolate shake, you'll get a delicious glass full of vitamins and nutrients with each serving of Thermojetics® High-Protein, Low-Carb Shake Mix. Not only is this tasty shake low in calories and carbohydrates, but it's high in protein while providing many of the vitamins and nutrients your body needs to sustain optimum health.

That's right. Now you need reach no further than Thermojetics® to obtain vitamin A, which helps in the formation and maintenance of healthy skin, hair and teeth; vitamin D, which helps maintain normal blood levels of calcium and phosphorus in the body, while helping to form and maintain strong bones; and vitamin K, which contributes to healthy bones. Thermojetics® High-Protein, Low-Carb Shake Mix also includes nutrients such as calcium and potassium so drink to your good health with Thermojetics® High-Protein, Low-Carb Shake Mix!

Discussion Points

- **Filling:** Helps maintain a more even blood sugar level throughout the day while alleviating hunger pangs.
- **Energizing:** Fewer carbohydrates mean no mid-afternoon energy lull or brain drain.
- **Convenient:** Just mix with water. The pre-measured packets make it easy to have a shake anytime or anywhere.

Did You Know?

Even some healthy foods contain lots of carbohydrates with a high glycemic index, such as carrots, beets and many fruits. The elimination of these foods, as well as those foods containing refined sugar, is critical to shutting off insulin, the hormone that facilitates the storage of fat. When sugar is unavailable to the cells from carbohydrates, the body turns on its fat burners and extracts energy from its own stored fat. The result is rapid weight loss and, just as important, fat loss.

Fast Facts

- Each serving has 15 grams of protein and approximately 5 to 6 grams of carbohydrates.
- Contains essential vitamins, minerals, nutrients and herbs.
- Convenient-to-use, single-serving packets mix easily with water.
- Only 110 calories and 3 or 4 grams of fat per serving.
- Two great-tasting flavors, vanilla and chocolate.

Vanilla
